

PRESIDENT WILSON SAILS FOR FRANCE; GOES DETERMINED AGAINST MILITARISM IN ANY FORM, HE LETS FRIENDS KNOW

CHIEF EXECUTIVE'S STEAMER GETS UNDER WAY FROM NEW YORK AT 10.15 O'CLOCK, A. M.

Is First Ruler of the United States to Set Foot on Steamship Bound for European Port; Elaborate Precautions Taken to Guard Party.

GIVEN PICTURESQUE MILITARY RECEPTION

By Associated Press.
NEW YORK, Dec. 4.—Woodrow Wilson, president of the United States, sailed today for Europe to participate as one of five representatives of the United States in the peace conference to be held in France.

The transport George Washington got under way at 10.15 A. M.

NEW YORK, Dec. 4.—Prior to President Wilson's departure today for Europe to attend the peace conference it became known that he goes determined against militarism in any form. The crushing of Prussian militarism was a part of his plan for the future peace of the whole world, the President feels, according to persons who conferred with him on the transport George Washington before it sailed.

NEW YORK, Dec. 4.—For the first time in the nation's history a president stepped in board a steamship which was to take him to Europe when today Woodrow Wilson walked up the gang plank of the transport George Washington, berthed at a Hoboken pier awaiting the executive's arrival from Washington.

A picturesque military reception was accorded the President, Mrs. Wilson, Secretary of War Baker, Secretary Lansing, Secretary Tamm and others who were passengers on the special train.

Admiral Albert Gleaves, head of the Atlantic fleet, met the President and shook hands with him at the entrance of the gateway. The President said goodbye to General McManus and, accompanied by Admiral Gleaves, went aboard the transport where he was introduced to Captain McCauley, the commander of the former North German Lloyd steamship.

Secretary Baker planned to leave the George Washington before it got under way. Secretary Tamm, however, remained on board for a final conference with the President and it had been arranged for a tugboat to take him off at quarantine and bring him back to the city.

NEW YORK, Dec. 4.—Long before President Wilson's special train arrived from Washington today there was unusual activity about Dock No. 4 at Hoboken where the transport George Washington was moored.

The usual barred zone was widely extended and only those armed with special passes were allowed to approach the streets leading to the dock. Military police kept an all-night vigil over the route from the railroad station to the pier. Navy patrols kept watch on the water front and Army airplanes circled over the vicinity and maintained a watch from the air.

It was noted that the paintings of George and Martha Washington occupied the space in the saloon formerly taken up by a large painting of the German emperor.

WASHINGTON, Dec. 4.—General discussion of President Wilson's 14 peace principles was started in the Senate today by a speech of Senator Frelinghuysen of New Jersey, Republican, advocating a resolution he had introduced calling upon the President to make a public declaration interpreting the principles.

PARIS, Dec. 4.—The 10 American dreadnoughts which will escort President Wilson to French waters will turn about immediately after their arrival to carry homeward a large party of American soldiers and sailors. The trip will be so timed that the men will arrive at home ports by Christmas.

The operation will constitute one of the greatest movements for transport purposes ever undertaken.

The fleet will reach Brest about December 11 and it probably will be possible to complete the work of coaling and provisioning the ships and embarking the troops within three or four days.

Vice Admiral Wilson at Brest is making arrangements for the movement and is determined to use the full transport capacity of each battleship which at present is less than usual because of the regular crews having been increased so that recruits might be trained.

QUAKE IN SOUTH AMERICA

Severe Disturbance Recorded on the Seismograph in Washington.
By Associated Press.
WASHINGTON, Dec. 4.—A severe earthquake, centered approximately 4,600 miles from Washington and apparently in South America began at 5:58 this morning and was continuing more than three hours later. The seismograph at Georgetown university recorded the disturbance.

Brazil, Chile and Argentina are in the area of the quakes.

WOUNDED FROM THIS COUNTY LIKELY TO COME TO MARKLETON

Under Arrangement of War Department for Sending Men From Overseas to Near-Home Hospitals.

Under the arrangement of the War Department for sending wounded soldiers to hospitals within 300 miles of the homes of nearest relatives, announced yesterday, it is believed that boys from Connellsville and Fayette county will be quartered at the Markleton hospital which is one of the 75 selected for the purpose.

Fifty thousand men are expected in these institutions in the next four months. Facilities have been provided for 194,231. From the port of entry the men will be taken to the hospitals on specially equipped trains to one of 16 localized groups where assignments will be made in such a way that the wounded soldier will go back to the region from which he entered service.

Among the other hospitals included in the groups are the Warner Home, or Hospital No. 31, Pittsburgh; Camp Sherman, Ohio, and Camp Lee, Va.

RESTRICTIONS REMAIN

Official Ruling on Sugar Purchases Not Received in State.

Although the morning papers carried a dispatch from Washington that sugar restrictions had been removed last night, due to large supplies coming from Louisiana and the West, information received by County Food Administrator C. L. Davidson today is that no such instructions have been received in Pennsylvania, and that until they are received the old ruling of four pounds a month per family on the certificate system and four pounds per 30 meals at selling houses remains in force.

Mr. Davidson talked over the telephone to J. E. Bacon, Philadelphia, who is in charge of the sugar division of the Food Administration. Announcement was made, Mr. Davidson said, that retail dealers may buy 30-day supplies without certificates.

RUSSIANS BARRED

Government Refuses Admission for These Prisoners in Germany.

LONDON, Dec. 4.—The Russian government has refused to admit 1,500,000 Russian soldiers who have been prisoners in Germany and has turned them back at the frontier, according to a Berlin dispatch to the Express under date of Monday.

The incident is serious for Germany because of the necessity of feeding these men.

No Flight Today.

Unfavorable weather today again prevented flights by Lieutenant Kenneth Reid. He still hopes to make a flight for the War Chest.

CARTER GLASS TO SUCCEED MADDOO IS UNOFFICIAL REPORT

By Associated Press.
WASHINGTON, Dec. 4.—Word went around unofficially on the House side of the capitol today that Representative Carter Glass of Virginia, chairman of the Banking and Currency committee, had been chosen by President Wilson to become secretary of the treasury.

FUEL HEAD RESIGNS

Administrator Garfield to Resign His Post as College President.

WASHINGTON, Dec. 4.—United States Fuel Administrator Garfield has resigned and his resignation has been accepted by President Wilson. In announcing the fact a statement issued from the White House makes it clear that the needs of domestic consumers of coal will continue to receive the attention of the Fuel Administration until the winter is passed.

It is understood that Dr. Garfield plans to remain at his post the remainder of this month, but that after the holidays he will resume his duties as president of Williams College. It is assumed that the President could act on the matter before his departure for Europe.

CITY WILL PAY TRIBUTE SUNDAY TO BRITAIN'S PART IN THE WORLD STRUGGLE

To honor England for the part played by the people of that nation in the winning of the world war, Britain Day will be observed here next Sunday afternoon when services will be held in the auditorium of the high school.

Ministers of churches of every denomination in the city will participate. Saturday night, a public meeting will be held on Brimstone corner.

A program has been arranged by the ministers for the meeting Sunday afternoon. Rev. J. T. Burns will preside. Singing will be provided by a quartet of English singers under the direction of E. W. Haviland. Rev. G. W. Buckner will make an address and the benediction will be pronounced by Rev. G. L. C. Richardson.

At the meeting at Brimstone corner prominent speakers will make addresses. The Connellsville Military band will play. It is requested that British and American flags be displayed from homes and business places.

The proclamation of Mayor Duggan follows:
"To celebrate Britain's achievements in the great world war under the initiative of the Surgegrave Institution in association with the National Committee of Patriotic Societies and the National Security League of American Defense.

"Americans cannot be unmindful of the fact that for two years or more of the war, our foreign trade was safe-

110TH CASUALTIES OVER 100 PER CENT, COL. MARTIN SAYS

Regiment Went Over With 3,200 Men; Victims at War's End 3,500.

1,200 KILLED IN ARGONNE
Fighting Continued Went Into That Battle With 1,800 and Came Out With 600, According to Figures Given By Officer in Pilsburg Address.

Casualties of the 110th Infantry were more than 100 per cent, according to a statement made by Lieutenant Colonel Edward Martin of Waynesburg, an officer of the old "Fighting Tenth" and now of the 110th, in addressing a large body of business men in the Chamber of Commerce auditorium in Pittsburgh yesterday. Colonel Martin was with the boys when they pushed through the Argonne forest, and cut the main line of railroad used by the Germans to transport soldiers and supplies north of the Metz. His address gave details not covered in an address at Waynesburg, published in The Courier.

"The 110th Infantry went into action in the Argonne forest," Colonel Martin said, "with 1,800 first line men. When we were taken out after 14 days and 14 nights of fighting, 1,200 men had been killed. But our estimates show that we caused the Germans four times as many casualties as they caused us."

The old "Fighting Tenth," Colonel Martin said, knew that it was fighting to end the war this fall.

"When we went into the Argonne forest," he said, "they told us that if the American army could cut through the war would probably be ended this fall; that if we cut through the Argonne forest we could cut the railroad line connecting the German army in the north with Metz, and the enemy would be cut off from his bases."

"Well, the boys think America's a fine place to live in. And they wanted to get back as soon as possible—but not until the job was done. That was the spirit in which the Argonne forest fight began."

He told how the 110th had been in the thick of the fighting since the last German drive on Paris; how it had helped to turn the tide at Chateau Thierry, with the eight American divisions who became the "Red Division," the snail troops of the American army; how it had captured the hills on the other side of the Ourcq river, with six charges that cost 1,000 casualties, July 28, 29 and 30, and driven the enemy back to the Vesle; how it held the Vesle for 28 days, gassed every day; how it had taken the hills beyond the Vesle; and how, ultimately, it was taken to the Argonne forest front.

"The Argonne forest fight," Colonel Martin said, "was a big fight. There were 1,000,000 American soldiers participating in it. We had 3,600 guns of six inches or larger caliber, while Meade at Gettysburg had 200, and a line of 30 miles, while Meade's line was eight miles in length."

"We went into action after three or four hours of artillery preparation, at 5.30 o'clock, the morning of September 26. Our men advanced behind a barrage that moved ahead at the rate of 100 meters every four minutes."

"The Argonne forest is hilly. It is made up of rough timber land, of patches of dense underbrush of clambering and cut timber. Through this the 28th Division fought, the 110th with it, for 14 days and 14 nights. Then they were relieved and another division put in. On the third relief the American army cut through."

"They took us out the middle of October, and sent us to the south of Metz. At last we were given a chance at rest, though, had there been another great drive, it would have been against Metz, and the 110th would have participated in it. As it was the signing of the armistice found my men still on the quiet sector below Metz."

"Every regiment of the 28th Division suffered casualties. The 110th went over with an original personnel of 3,200 men. Our casualties, when we stopped, totaled 3,500. And we were not the only regiment whose casualties were more than 100 per cent."

GREAT WORK DONE BY RED CROSS IN FAYETTE COUNTY

Interesting Facts Set Forth in Appeal For Support By Secretary Scheuch.

NEARLY 200,000 ARTICLES
For Hospitals and for the Refugees in Allied Countries Completed During Year; Approximately 2,000 Women at Work For Organization.

The following statement of activities of the Fayette county chapter of the American Red Cross was made today by Executive Secretary Walter P. Scheuch in an appeal for support of the War Chest:

"The American Red Cross is one of the eight organizations included in the present War Chest campaign, and is the only one that is organized and working in Fayette county. It being the largest of these different war activities and the one to receive the greatest amount of help, a statement as to what the Fayette County Chapter American Red Cross has accomplished in the last year would not doubt be of interest to the people of Fayette county."

A year ago there were three chapters of the Red Cross in this county, and it was felt by the officials and members of these different chapters that a better working organization could be formed by combining the three into one county chapter. After a number of meetings and conferences this step was decided upon and on May 3 the Uniontown, Connellsville and Brownsville chapters united to form the Fayette county chapter. This chapter includes all of Fayette county except the boroughs of Point Marion, Belle Vernon and Everson.

Today the Fayette county chapter is composed of 75 different branches and auxiliaries, each one of these being a completely organized unit, turning in regularly finished products for the use of our soldiers and sailors in the service, and for the refugees of all of the Allied nations.

"The county chapter is now compiling statistics for an annual report and from information already received it shows that the following material has been made and shipped to our division headquarters, from November 1, 1917, to November 1, 1918:

Surgical Dressings, 136,336.
Hospital and refugee garments, 44,766.

Knitted articles, 11,484.
This report is not complete, but it gives an idea of the immense amount of work that is done by the women of Fayette county. All of the material necessary for the making of these supplies was purchased by the chapter. According to information received, the chapter is to not only continue its output of refugee garments and knitted articles, but it is asked to increase production along these lines. Therefore, additional funds are needed if we are going to continue to meet the necessities."

"The Fayette county chapter also has a well organized Civilian Relief and Home Service bureau. This

WILSON'S COURSE SHARPLY ATTACKED IN SENATE DEBATE

By Associated Press.

WASHINGTON, D. C., Dec. 4.—Action on the resolution of Senator Cummins of Iowa, Republican, proposing that a Senate committee be sent to Paris for the peace conference was postponed until tomorrow by the Senate Foreign Relations committee today after an executive session to discuss the resolution and hear Senator Cummins in his behalf.

Senator Frelinghuysen said the President's 14 principles were open to various interpretations and added:

"The President should not, on behalf of the American public, make radical proposals until he is sure they are endorsed by the people." Senator Walsh of Montana, Democrat, declared that lack of criticism, until recently, of the President's 14 terms had justified general belief in their acceptance. Senators Knox of Pennsylvania and Pendleton of Washington, Republicans, sharply dissented.

Will Resume Services.

Services will be resumed in St. John's Episcopal church, Dunbar, on Thursday evenings at 7.30 beginning this week. This service will take the place of the former service on Sunday afternoons.

"THANK YOU, CONNELLVILLE" SAYS A BELATED TRAVELER, FOR A GOOD DAY GIVEN HIM

That Connellsville is a wholesome, satisfying place in which travelers can spend a portion of their time with both pleasure and profit has been given proof in a rather novel and unusual manner.

A few days ago a young man in the uniform of a lieutenant applied at the Carnegie library and asked permission to use the magazine room for a short time. This was cordially granted him and, in several hours in going through the magnificent collection of current publications which are free to all callers. Before leaving he was observed to be writing and as he took his departure, following an expression of thanks for the privileges he had enjoyed, he left the following carefully written statement, to which he had appended the signature, "A Belated Traveler."

"Connellsville is a bad place to be marooned for a day, remarked a fellow diner at an unusually good dinner in the very pleasing and comfortable dining room of a local hotel. I replied that I had entered the city anticipating such an experience, but had passed the morning very pleasantly talking to an intelligent and wide-awake tailor of whom I had made a small purchase.

"After the noon meal a man told me of the noble death of his two brothers whom I had known in camp, and a father and mother of a soldier boy—

Connellsville, However, Does Not Share, Nor Is Uniontown Included.

COKE PLANT DISTRICTS

Will Benefit by the Corporations' Pledges of Over \$100,000 to the County War Chest; Sentiment Crystallizes in Favor of the Campaign.

Contributions of the H. C. Frick Coke company and the Union Supply company to the Fayette County War Chest, aggregating \$100,500, will be apportioned among districts of the county in which the plants and stores of the corporations are situated. That announcement was made at War Chest headquarters this morning by Campaign Manager D. W. McDonald in order that chairmen in some districts in promoting the campaign would not count upon a portion of the initial subscriptions as credits against their quotas. The apportionment, Mr. McDonald believes, is the most equitable method of crediting the subscriptions and places every district upon its own responsibility to raise the quota assigned it.

Both Uniontown and Connellsville are effected by that decision of the War Chest managers, and the residents of each city must among themselves contribute their full quotas to meet the expectations of the campaign managers. Although mines of the H. C. Frick Coke company are located in the near vicinity of both cities there are no operations located within the city limits. Brownsville, on the other hand, will receive an apportionment of the Frick and Union Supply contributions, the Bridgeport mine being within the borough limits.

Apportionment of the contributions will be made in accordance with the number of men employed at the various operations.

Sentiment has crystallized rapidly this week in favor of the War Chest. The business-like method of raising funds for relief and welfare organizations in one united drive is being heartily endorsed. Partial reports coming in from district chairmen of first solicitation show that refusals to solicit are negligible and that generally the individual quota of a "day's wages per month for five months" is being accepted.

Ministers in every church in Fayette county next Sunday will devote one sermon of the cause represented by the War Chest.

Although public meetings were not generally limited during the preliminary stages of the campaign, that phase of the drive will play a dominant part in its actual promotion. The request to the ministers for a Sunday sermon on the War Chest is one feature of that program and in addition meetings are being held each evening, and during the afternoon, in some sections.

Judge J. Q. Van Swearingen, president of the War Chest, and D. W. McDonald, campaign manager, left their desks at War Chest headquarters yesterday afternoon and made an automobile trip to Ohio where they conducted a rousing War Chest rally Tuesday evening.

At telegraphing addresses were made by D. M. Horzog, A. E. Jones and H. S. Dumbauld.

Workers at Dunbar last evening held stirring addresses by Rev. E. A. Hohl and George B. Jeffries.

MINSTREL TONIGHT

Soldiers From Markleton Hospital Will Stage Show.

The dress rehearsal for the minstrel show to be staged at the high school auditorium tonight by soldiers from the United States General Hospital No. 17 at Markleton, was held this morning in the Elks' home. The company of soldiers has been rehearsing under the direction of C. E. Stout of this city.

Tickets for the minstrel can be reserved at C. Roy Heston's drug store. There has been a good advance sale and as the proceeds of the minstrel go to the amusement fund of the several hundred soldiers who are in the Markleton hospital, it is hoped that there will be a full house tonight.

Thrown from Burly.

When thrown from a burly last evening H. J. Yocum, 53 years old, of East Crawford avenue, suffered a fractured femur. He was admitted to the Cottage State hospital this morning for treatment.

Eight New Patients.

Eight new patients were admitted yesterday to the emergency hospital making a total of 25 persons who are receiving treatment.

The regular meeting of the I. X. L. Bible class of the United Presbyterian church was held last night at the home of Miss Mabel Skiles in North Third street, West Side. Business of a routine nature was transacted.

The 10th annual reception and gathering of the Trinity Reformed church will be held tomorrow evening at 8 o'clock in the church.

Practically all arrangements have been completed for the bazaar to be held tomorrow, Friday and Saturday in a room in the Welthe building, South Pittsburg street, under the auspices of the Charleston Committee Branch of the Y. M. C. A. There will be on sale a great variety of handsome bags, cambrics and other articles suitable for Christmas remembrances.

Mrs. A. B. Stauter entertained the Greenwood Fancypark club and members of a similar club, of which she is also a member, yesterday afternoon at her home in North Third street, West Side. About twenty-five ladies attended and spent a delightful afternoon at fancywork and knitting. Delicious refreshments were served. The next meeting of the Greenwood Fancypark club will be held Tuesday afternoon, January 7th, at the home of Mrs. Grant Myers on Porter avenue.

The Elks' entertainment committee's weekly dance given last evening in the Elks' auditorium was pronounced the best so far of the series by the large crowd present. Kiefer's augmented jazz orchestra has scored such a hit that the committee has decided to retain the six pieces. The latest music from The Polites and other current New York successes is being furnished. That the committee's efforts to make these dances the most successful of the season are being appreciated is shown by the increasing weekly attendance.

The regular meeting of the Woman's Guild of the Trinity Episcopal church will be held tonight at the home of Mrs. Herbert Pratt in Dunbar, the members leaving here on the 7:30 o'clock car.

The Ladies' auxiliary to the Brotherhood of Railroad Trainmen, 3510 103, will meet tomorrow afternoon at 2 o'clock. Officers for the ensuing year will be elected and all members are urged to attend.

The Ladies' Aid society of the M. P. church will meet tomorrow at 2:30, at the church.

BLOODY RAZOR FOUND

Pechin Exercised Over Discovery in the Creek There.

A razor, opened entirely back in the manner in which it is used in a fight, and covered with blood, was discovered lying in the creek at Pechin station Monday. Its appearance caused much inquiry, but as no trace of any cutting that had been done could be found, it developed into an unsolved mystery.

Some hold that the bloody razor was thrown from a passing street car by some one who had used it in a fight and did not want to have it found on his person. Others think it might have been thrown into the creek by some of the men employed at Mount Braddock putting down the additional B. & O. track, and the water carried it to Pechin. This is an improbable solution, however, as it would not float far without losing its stains.

CASTER RE-ELECTED

Well-known Musician Heads Military Band for Another Year.

John C. Caster was re-elected director of the Connelville Military band for the ensuing year and R. A. Mulac president, to succeed S. E. Desmore, at a meeting held last night in the band room in the City building. Other officers were elected as follows:

GREAT WORK DONE BY RED CROSS IN FAYETTE COUNTY

Continued from Page One.

bureau since its organization in June has had over 425 cases presented to it for settlement. The work consists of securing allowances and allowances for dependents of men in the service, furnishing temporary relief for their families, and rendering other assistance where called upon. During the past week provision has been made for placing two blind children in the Western Pennsylvania Institute for the Blind in Pittsburgh. During the months of November alone 71 new cases were handled.

The Fayette county chapter has forwarded over 500 messages to relatives and friends in Germany, Austria and other Central Powers. During a recent campaign for Belgian Relief clothing the chapter shipped over 50,000 pounds of clothing, against its quota of seven tons.

"It furnished several tons of fruit pits and nut shells for the making of charcoal for gas masks."

In the influenza epidemic that is still prevalent over certain parts of the county it has rendered invaluable service, being either directly or indirectly connected with the 29 or more emergency hospitals, and furnishing thousands of dollars worth of hospital material and supplies and securing over 30 trained nurses from points outside the county for the combating of this epidemic.

Through the Fayette County chapter nearly 2,500 Christmas boxes were distributed, inspected and shipped to men overseas.

"The Fayette County chapter has a membership of nearly 20,000 and expects to double it under the present campaign."

"Approximately 2,500 women are working in the 75 different branches and auxiliaries."

"Is such an organization worth while and deserving of the support of the people of Fayette county?"

HAS GOOD RECORD

Only Eight Deaths Among 65 Patients at Leisenring.

Since the opening of the emergency hospital at Leisenring No. 1 a few weeks ago, 65 influenza and pneumonia cases have been treated, and only eight deaths have occurred. At the present time there are 23 patients in the hospital. One was admitted yesterday and two today.

Miss Marie Cox of the West Side, a graduate nurse, is in charge of the hospital. Patients admitted are from Leisenring, Trotter, Blinn, Junius, Elm Grove, Adelaide and other communities in the region.

Dies of Diphtheria.

Leon B. Albine, two years old, daughter of William L. and Rosie Moravitz Albine, died this morning at the family residence in South Sixth street, West Side, of diphtheria. Private funeral services will be held tomorrow morning. Interment in St. Joseph's cemetery.

Postpone Football Game.

The football game to have been played Friday between the teams of Boy Scouts Troop, Nos. 1 and 4, has been postponed until Friday, December 13. Practices have been called off until next week.

Notice.

The regular meeting of the Macabees will be held Thursday evening at 8 o'clock in Markell Hall, at which time the election of officers will be held. There will also be a smoker.—Adv. 4-21.

ATTENTION IS RIVETED ON BULLSKIN

Teachers Stand Pat in Demanding Pay for Time They Were Idle

PUBLIC OPINION WITH THEM

Loss of Eight Weeks of Salary During Influenza Epidemic, and Meager Salary at That, Has Meant Financial Embarrassment, is Their Contention.

Special to The Courier.

SCOTTSVILLE, Dec. 4.—The teachers of Bullskin township, Fayette county, appear to be in a class by themselves. All around them, both in Fayette and Westmoreland counties, teachers have been drawing full pay for the time during which the schools have been closed, yet the Bullskin teachers, although they have been without work for eight weeks, some of them having sickness to contend with, and all of them having been compelled to face the increasing demands of living and the claims of a nation in war time, have had to finance themselves without the aid of their salaries as teachers.

The directors have steadfastly refused to pay them for the time they have not been able to teach on account of the influenza ban. Two meetings of directors and teachers have been held and nothing done. It was quite an indignant body of teachers that met the directors of the township in a meeting at the Pennsylvanian school Monday night. The vote of the board was a tie. Two wished to pay the teachers and two did not wish them paid. Mr. Freed, who was absent, was reported as having been in favor of paying the teachers. Messrs. J. M. Keefe and H. A. Reagan also were reported as favoring. Messrs. Rhodes and Spangy were opposed.

The teachers organized and sent a committee to wait on the directors to say: First, they demanded full pay for the time they were out of school. Second, they refused to return for duty unless paid for the full time during which the schools shall be closed. Third, that the action of the directors and that of the directors be published in the newspapers. The directors are given 10 days to make final decision in the matter. A meeting of the teachers is called for Thursday night, December 12, in Scottsdale if the board has not voted affirmatively by that time, when necessary steps will be taken toward legal action.

Director Spangy made the statement that if he were sworn that the board would be acting legally by paying the teachers, he would change his vote. He was given the opinion of Messrs. McDonald and Dumbauld, Uniontown attorneys, at Monday night's meeting, that such action would be legal, but his vote remained unchanged. Superintendent Carroll has given his opinion that the teachers must be paid and it would appear that this is the only wise and just thing to do at this time. Principal W. E. Miller has stood behind the teachers.

January Prices Now. Thirty days ahead of all others. Everybody who appreciates style, value and big selections, should not miss it. A wonderful value—giving sale of women's, misses' and children's coats, suits, dresses, furs, furnishings, waists, skirts, millinery. Just about one-half price all through the store. For Sale. Five-room house, four and one-half acres land, one mile from Scottsdale, on street car line, for \$2,500. E. P. DeWitt, Brennan Bldg.—Adv. 4-11.

Treat for Unfortunates. Mrs. W. W. Elcher entertained the W. C. T. U. at her home here last evening. The evening was spent in arranging for the due social to be held at the Loucks avenue home of Mrs. Robert Skemp. A special invitation is extended to all members to be present. The sum of \$2.50 was given to the county home toward the annual Christmas treat. A smaller amount was sent the jail to be used toward a treat. Letters were read from John Herbert and P. O. Steelsmith, thanking them for the comfort kits sent them.

Personal. Leave your order for turkeys, live or dressed, for present use or for Christmas. William Ritchie, 331 Payne 122-J, Scottsdale.—Adv. 4-11. B. Folk spent yesterday in Grimsburg. Mr. and Mrs. W. H. Eberhart and daughter Phoebe have returned from Cleveland, Ohio.

The Philosophical Observations of a Patriotic Business Man

BY A PRO-AMERICAN.

PRIOR to the signing of the armistice, I would have given all my available assets to end the war.

Now that peace has come have I finished my task?

Is my work ended? Should I share in the financial responsibility of caring for the 2,500,000 boys who went through hell for me and who want to come back? Am I a patriot if I forget their service NOW?

I am not a quitter.

We all know that this country must sell more, and more, and still more War Savings Stamps. IF WE DO NOT LOAN THE MONEY UNCLE SAM WILL DEMAND THAT WE PAY IT OUTRIGHT IN TAXES. WE CAN LEND OUR MONEY AT 4 PER CENT COMPOUND INTEREST. WHAT WE GIVE IN TAXATION WILL NEVER COME BACK.

AS A BUSINESS MAN, I AM GOING TO GET INTO THIS LAST BIG W. S. S. DRIVE. Every county in the United States has a fixed quota. Every county making good will be honored with a beautiful bronze tablet which will become part of the county court house representing the everlasting appreciation of the United States for the patriotic services of the people of this district. As a matter of patriotic and civic pride I want my county to have this beautiful marker.

I am going to invest in the cost of a \$1,000 Pershing membership and induce all my friends to join this W. S. S. limit club. I am going to ask all men and women to buy in the largest amounts they can afford up to \$1,000.

A careful scrutiny of the list of men and women of this county shows that only 50 per cent of the people have helped in the War Savings Stamp campaign during 1918. That is why we are not at the head of the list in Pennsylvania counties.

We have until January 1st to make good. Let's give stamps as Christmas gifts. Let's exchange Liberty Bond coupons for War Savings Stamps.

LET US NEVER FORGET THAT THE MONEY NOT SUBSCRIBED IN WAR SAVINGS STAMPS WILL HAVE TO BE MADE UP IN NEW LIBERTY LOAN ISSUES AND IN REVENUE TAXES.

UNCLE SAM HAS FIXED CHARGES UNTIL THE ARMY HAS BEEN DEMOBILIZED. IT IS UP TO US TO PAY THE BILL. LET'S GET BUSY.

New pledge cards are being distributed to every home in this county. Get one; sign it and let Pershing know that we will stay on the job as long as our boys are in the service.

FIND MUCH USE FOR IVORY

Markets of the World Are Open for It Today, and the Supply Seems Undiminished.

If you ask any dealer what ivory is chiefly used for at the present day, he will reply at once: "Piano keys."

America imports ivory from the east coast of Africa exclusively for this purpose. Next in volume come billiard balls, cutlery handles, brushware and toilet articles. It also enters into the manufacture of numerous little ornaments and articles of general use, such as statuettes, crucifixes, paper cutters, workbox fittings, toys and chessmen.

The most valuable of all is the "scrivallor," to which I have referred—as being used in the making of billiard balls, and on an average three balls of fine quality are got out of a small tusk. Ivory balls, however, have now formidable rivals in benzolite and other composition materials, and in regard to quite a number of articles which used to be fashioned out of ivory, celluloid and bone take its place.

There is little waste product from ivory. A use is found for cuttings, shavings and scraps left over after main processes have been completed. India takes large quantities of the

ivory left after the turning of billiard balls, and uses them to make women's bangles and small toys and models, in which the cunning hand of the native craftsman excels. The dust is used in polishing and in the preparation of ivory black and India ink, and I am told it may also be utilized as food in the form of ivory jelly, a delicacy of which I have no personal knowledge.

Elephants are carefully preserved in many districts. If the ancient quadruped is really destined to follow the mammoth and the cave bear, and cease to walk the earth, he is in no hurry to go. He would be a rash man who would venture to predict when the last tusk may be expected to vanish from the scene and the last parcel of animal ivory be delivered at the London docks.—London Post.

Why Fish Do Not Travel Far.

Animals of both land and sea are confined within rather narrow limits of pressure. In his book on the North sea fisheries, Neal Green shows that the North sea fishes are isolated in their own little world, for they cannot migrate to the Atlantic depths, and, with a few such exceptions as the eel, deep sea fishes cannot enter shallow waters. Foraging for food is the fish's occupation. The North sea fishes will not descend into the ocean because there is no food to attract their eyes are not adapted to the darkness, and the pressure of the water is greater than ordinary fish can endure. In the depths there are no seasonal changes, no currents. Everything is uniform, stagnant, black, and the only fishes that can see are those specially endowed with enormous eyes to perceive the phosphorescent glow of others of their kind. If they could rise to the conditions of the North sea, these deep sea dwellers would be helpless, if not destroyed by the release from external pressure.

Cold Woman. "What's the matter? A bridegroom shouldn't look so depressed." "Disfranchised, that's what." "How now?" "I offered my wife two kisses to build the kitchen fire, and she satly refused."

Memorial Service Sunday for Lieut.
Stevenson and Sgt. Robt. Ramsey

MOUNT PLEASANT, Dec. 4.—The
school board held its regular monthly
meeting on Monday evening and
elected C. E. Zimmerman president
and C. E. Clark vice president. The
schools will close December 13 for the
holiday vacation and will open again
on December 30. This gives the children
a vacation during the institute
week and the week of Christmas.

The students will conduct a lecture
course which will begin December
23 with the Judge Stevens Concert
company. Other numbers will be
Monday, January 20, Captain E. B.

OLD PRESCRIPTION FOR WEAK KIDNEYS

Have you ever stopped to reason
why it is that so many products that
are extensively advertised, all at once
drop out of sight, and are soon for-
gotten? The reason is plain—the ar-
ticle did not fulfill the promises of the
manufacturer. This applies more par-
ticularly to a medicine. A medicinal
preparation that has real curative
value almost sells itself, as like an
endless chain system the remedy is
recommended by those who have been
benefited by those who are in need of it.

A prominent druggist says: "Take
for example Dr. Kimer's Swamp-Root,
a preparation I have sold for many
years and never hesitate to recom-
mend, for in almost every case it
shows excellent results, as many of
my customers testify. No other kid-
ney remedy that I know of has so
large a sale."

According to sworn statements and
verified testimony of thousands who
have used the preparation, the suc-
cess of Dr. Kimer's Swamp-Root is
due to the fact that, so many people
claim, it fulfills almost every wish in
overcoming kidney, liver and bladder
ailments, corrects urinary troubles
and neutralizes the uric acid which
causes rheumatism.

You may receive a sample bottle of
Swamp-Root by Parcel Post. Address
Dr. Kimer & Co., Birmingham, N. Y.,
and enclose ten cents; also mention
the Connellsville Daily Courier. Large
and medium size bottles for sale at all
drug stores.—Adv.

Leader of Athletics Predicts Big
Things for Baseball—People
Thirst for Sport.

"Baseball is going to come back
king," asserts Connie Mack. "The
game is arranged during the winter
season of 1919 will be one of the
best of record, for the people are
thirsting for a return of sport on an
unrestricted scale."

"Personally, I am not in favor of
resuming baseball until the war ends.
It has been suggested that some of
the large major league clubs in the
East form a temporary circuit com-
posed of players under the military
age."

"This would never be a success, for
the fans would not take a half-hour's
car ride to see them play."

"If a national baseball league
is organized, I would much rather see
the parks closed than
try to play in the spurious article on
the baseball public."

LET THIS CREAM CURE YOUR PIMPLES

For several weeks past A. A. Clarke
has done a big business in selling Ho-
kara, the skin healer that has won so
many friends in Connellsville.

It has been found to heal not only
all minor skin troubles, such as pim-
ples, blackheads, herpes, acne, itching
scalp, complexion blemishes, itching
sores, piles, etc., but also the worst
cases of eczema, or even chronic eczema
and salt rheum. There is yet to be
found any form of wound or disease
affecting the skin or mucous mem-
brane that Hekara does not help, and
its action is so quick that those who
try it are simply delighted with it
right from the start.

In spite of its unusual curative pow-
ers, the price is trifling. To guarantee
every one of its merits, A. A. Clarke
will sell a liberal-sized jar for 35c.
And remember that if you do not think
it does what it claims, you can get
your money back. You certainly can
afford to try this plan.—Adv.

THE SOISSON

"SOCIAL AMBITION"—A Goldwyn
attraction with Rhea Mitchell and
Howard Hickman in exceptionally in-
teresting roles, is being shown today.
The play is described as a virile drama
of a man's redemption and a woman's
steadfast faith, its action shifting
from an Alaskan mining town to the
sophisticated society of an eastern
metropolis. Katherine Kirkham, who
plays the role of the social butterfly,
wife of Vincent Mantion, enjoyed a
successful stage career before taking
up picture work. Produced with care
and richness, played by a cast of fin-
ished artists and with two such ca-
pable players in the star roles, it is no
wonder that Goldwyn elects to sub-
title "Social Ambitions" to the public
as a splendid example of cinemato-
graphic art. It tells a gripping story
and will rivet the attention of the pub-
lic because of its fidelity to life as it
is lived in America today. It is not
just a story devised to entertain. Nor
is it a preachment. The Selznick
drama is a skillful combination of all
the elements that go to make a distin-
guished screen offering. Beautiful
settings, shifting from Alaska to an
eastern metropolis, graphic acting and
flawless photography are the compo-
nent parts of this superlative drama.

THE PARAMOUNT

"TOGETHER"—A five-part Bluebird
feature, in which Violet Mersereau,
the charming screen star, portrays
three roles, a mother, daughter and
sister, is being shown today. The pic-
ture is an absorbing story of a young
girl outwits a rascally executor who
sought to keep a large fortune from
her is pictured in "Together." In one
scene in particular Miss Mersereau
is seen engaged in a fight, as Laura
Standhope, with herself in the part
of Larry, the kid. This scene is
one of the most successful double ex-
posures yet made. One scene in the
picture shows her in all three roles,
an example of triple exposure. The
girl's triumph over the executor and
her search for her brother necessitates
many thrilling experiences which add
vigor to this charming story. Chester
Barrett, well known to moving picture
patrons, appears in the cast support-
ing Miss Mersereau. A selected com-
edy is also being shown, Thursday
Carlyle Blackwell and Evelyn Grepley,
will be starred in "The Road to
France," a seven reel World Photo-
play of unusual interest. An inter-
esting weekly review will also be
shown.

"SOLDIERETTES" FEATURED

A military musical play of big in-
spiring moments of patriotic zest,
pleasing novelties, jingly music and
"intimate" periscope, fittingly de-
scribes in a nutshell this latest stage
success announced for the Scottdale
Theatre tonight.

This show is said to hit all of the
high spots of possibility in the realms
of spectacular production and from
the very outset of its fast and pic-
turesque action no dull moment is al-
lowed. Plot?—It has none, but a
slender thread of a story is told to
highlight the players' characteriza-
tions, and when these linger longer
than it takes to sing a song or start a
laugh, the pretty "soldierette" chorus
"show girls" and "pony" dancers, al-
ways with changed, fetching costumes,
—swarm on and over the stage and
overflow to over the orchestra seats,
too, sometimes, and gaily disporting
singing and dancing keep the pot boil-
ing with fun.

MUSICAL COMEDIES COSTLY

Not in history were financial losses
of theatrical producers so great as at
the outset of last season. Of the usual
many attractions launched in New
York, the records show that less than
50 per cent continued over two months
and less than 15 per cent lasted the
season. Of a half dozen musical com-
edies to meet success in 1917 and 18,
one of the most notable was "My Sol-
dier Girl," which comes to the Mount
Pleasant Grand Opera House on Fri-
day, December 6. This attraction con-
stituted an uninterrupted season from
its opening in New York City—inclu-
sive of a short travelling season fol-
lowing its run—of 47 box-office record
breaking weeks, its military flavor—or
what not of its unusual character,
novel beauty display, etc.—caught
theatrical popularity and held fast, un-
til now. "Miss Popularity" and "My
Soldier Girl" are synonymous terms.

What Is Nuxated Iron?

Physician Explains—Says Public Ought To Know What
They Are Taking—Practical Advice on What To Do
To Build Up Your Strength, Power and Endurance
and Increase the Red Blood Corpuscles.

The fact that Nuxated Iron is today being
used by over three million people annually
and that so many physicians are prescribing
it as a tonic and blood builder in
weak, nervous, run-down conditions, has led
to an investigation of its merits by distin-
guished physicians and other whose reports
should be of great importance to the public.
Among these is the statement
made by Dr. James Francis Sullivan, former-
ly physician of Bellevue Hospital (Outdoor
Dept.), New York and Westminster County
Hospital, who says: "When one patient after
another has asked my opinion of Nuxated
Iron, I resolved to go thoroughly into the
subject and find out for myself whether or
not it possessed the real value claimed by
its manufacturers and attested to by so many
prominent people. This is exactly what I
believe every honest conscientious phy-
sician should do before prescribing or lending his
endorsement to any product whatsoever. It
is an article worthiness practitioners ought
to be the first to know of it and it is effi-
cacious was widely known to recommend
it for the welfare of our patients. A study
of the composition of the Nuxated Iron for-
mula so impressed me with the therapeutic
efficiency of the product that I immediately
tested it in a number of chronic cases. So
quickly did it increase the strength, energy
and endurance of the patients to whom it
was administered that I have firmly con-
vinced of its remarkable value as a tonic
and blood builder. I have since taken it my-

self with excellent results. There are thou-
sands of delicate, nervous, run-down folks
who need just such a preparation as this, but
do not know what to take. Therefore I have
urgently suggested the widespread publica-
tion of the sworn statement of the compo-
sition of this formula so that the public may
know what they are taking. This complete
formula is now to be found in newspapers
throughout the country. It is composed
principally of organic iron in the form of
an economic and a special specific standard
and microphosphorus which is one of the
most easily tonic ingredients known. To the
credit of the manufacturers it may be said
that they use the most expensive form of
iron purchased wherever by employing it
makes they could have not the same quan-
tity of actual iron in the tablets as has than
one-fourth the cost and by using metallic

'MID BURSTING BOMBS AND ROCKETS' GLARE

Heroism of Two Red Cross Doc-
tors and Two Women Canteen
Workers During Bombardment.

Just outside the French town of
Compiègne stands the Chateau of An-
nel, an ancient structure dating back
hundreds of years. Its walls and vaulted
rooms could tell many a tale of
medieval adventure—perilance of
violence—of romance and sorrow.

Today it can tell the story of two
surgeons—American Red Cross doc-
tors—who for a day and a night and a
second day saved hundreds of lives—
operating by candle light upon wound-
ed French soldiers, the while shells
crashed and the ping of machine gun
bullets resounded—the while the ene-
my was advancing steadily until he got
within five miles of the little hospital.

The chateau had been used as an
advance hospital under direction of
the French Service de Santé. Major
Turkowsky and Major Morehead, two
Red Cross doctors, were in charge,
the personnel being French. When
the enemy came within six kilometers
the French authorities ordered the
evacuation of the place, the patients
being removed at night in canal boats.
The two Red Cross doctors were at
their wits' ends. Their labors were
circumscribed by human limitations.
There were just four hands and no as-
sistance of any kind. But somehow
face usually intervenes when the need
is direct. So in the nick of time two
American canteen women came over
from Compiègne.

Still, supplies were lacking, and
again fate proved kind. Five heavily
laden Red Cross canteens arrived with-
in an hour after the women, each with
two men, so that the personnel now
consisted of two doctors, two women
and ten men.

Inside two bearded human beings,
sprawled with blood, sense of face, but
alert and ready for any emergency.
Two brave women are bandaging them
the instruments as they are needed—
the bandages, the other surgical para-
phernalia. Other men are holding can-
dles, administering anaesthetics, car-
rying in the wounded, carrying out
those whose wounds have been bound
up, playing hospital angels in an un-
known tongue to the fellows lying in
the wards.

ADVICE TO "FLU" CONVALESCENTS

SPAIN AND ENGLAND REPORT INCREASE IN TUBERCULOSIS AFTER INFLUENZA EPIDEMIC.

U. S. Public Health Service Warns Public Against Tuberculosis. One Million Cases Tuberculosis in United States—Each a Source of Danger.

Influenza Convalescents Should Have Lungs Examined—Colds Which Hang On After Beginning of Tuberculosis. No Cause for Alarm if Tuberculosis is Recognized Early—Patent Medicines Not to Be Trusted.

 Beware tuberculosis after influenza. No need to worry if you take precautions in time. Don't diagnose your own condition. Have your doctor examine your lungs several times at monthly intervals. Build up your strength with right living food and plenty of fresh air. Don't waste money on patent medicines which tend to cure tuberculosis.

Washington, D. C. (Special)—According to a report made to the United States Public Health Service the epidemic of influenza in Spain has already caused an increase in the prevalence and death rate of pulmonary tuberculosis. A similar association between influenza and tuberculosis was recently made by Sir Arthur Newsholme, the chief medical officer of the English public health service, in his annual report on the tuberculosis death rate in England.

In order to protect the people of the United States from the danger of the epidemic of influenza, the Surgeon General, Rupert E. Smith, of the U. S. Public Health Service has just issued a warning emphasizing the need of special precautions at the present time. "Experience seems to indicate," says the Surgeon General, "that persons whose resistance has been weakened by an attack of influenza are peculiarly susceptible to tuberculosis. With millions of people recently affected with influenza, this country now of persons contracting tuberculosis favoring the spread of tuberculosis."

One Million Consumptives in the United States.

"Then you consider this a serious menace?" was asked. "My opinion is, though I hesitate to add it is distinct one against which the people can guard. So far as one can estimate there are at present about one million cases of tuberculosis in the United States. There is no accurate census available to show exactly the number of tuberculous persons in each state despite the fact that most of the states have made the disease reportable. In New York city where reporting has been in force for many years, over 35,000 cases of tuberculosis are registered with the Department of Health. "Those familiar with the situation believe that the addition of unrecognized and unreported cases would make the number nearer 50,000. The very careful health survey conducted during the past two years in Birmingham, Miss., revealed 200 cases of tuberculosis in a population of approximately 1,000. If these proportions hold true for the United States as a whole they would indicate that about one in every hundred persons is tuberculous. Each of these constitutes a source of danger to be guarded against."

What to Do
 In his statement to the public Surgeon General Smith points out how those who have had influenza should protect themselves against tuberculosis. All who have recovered from influenza, says the Surgeon General, should have their lungs carefully examined by a competent physician. In fact it is desirable to have a general examination of the lungs at intervals of a month or two. Such examinations cannot be made through the clothing nor can they be carried out in two or three minutes. If the lungs are found to be free from tuberculosis every effort should be made to keep them so. This can be done by right living food and plenty of fresh air.

Danger Signs
 The Surgeon General warned especially against certain danger signs, such as decline and colds which hang on.

These he explained, were often the beginning of tuberculosis. If you do not get well promptly if your cold seems to hang on or your health and strength decline, remember that these are often the early signs of tuberculosis. Place yourself at once under the care of a competent physician. Tuberculosis is curable in the early stages. Patent Medicines Dangerous in Tuberculosis.

"Above all do not trust in the misleading statements of unscrupulous patent medicine makers. There is no specific medicine for the cure of tuberculosis. The money spent on such medicines is better spent in such a way as to secure for good food and decent living."

'VICTORY SALESMEN' AND CUSTOMERS IN FINAL W. S. S. DRIVE

Pittsburgh District Traveling Men Organize Storekeepers of Western Pennsylvania to Work for 100 Per Cent Quotas by January 1

AFTER a great configuration when smoke and smoldering fire still burns beneath the debris, the last spark must be extinguished. Greater than all the fires and diseases of world's history, greater than all the wars the end is not yet in Europe. There is desolation and runs poverty and misery among millions of people in Austria, Germany, France, Belgium and England.

The war for soldiers may have ended with the armistice. The battle for humanity has but begun.

The Victory Salesmen declare that doing the work of war by half is not representative of American humanity. These salesmen 1,000 strong intend that the War Savings Stamps quota for Western Pennsylvania of \$68,000,000 will be reached before January 1.

The Victory Salesmen who visit the home of every class in Western Pennsylvania are determined to show each storekeeper and every office that it is the duty of red blooded Americans to stay in the war work until the last of the 2,500,000 soldiers in Europe have been returned.

All the money thus far subscribed and loaned to the government has been used to carry on the war. Millions of dollars will have to be spent for the transportation home of the troops. We must feed and clothe these soldiers. Millions of dollars in supplies have been sent abroad and American ships must return these supplies with the soldiers.

Only half of the W. S. S. quota has been sold.

The Victory Salesmen are planning a vigorous campaign and every town in Western Pennsylvania will be reached in their campaign.

R. C. McCreer of James A. McCreer's Sons is chairman of the Executive Committee of the Victory Salesmen. E. L. Allen treasurer and E. H. Levy secretary. The Executive Committee includes: W. H. Parker, Logan; J. G. Brown, Hill; J. H. Immel, general insurance; Frank W. Hughes, Frank W. Hughes Co.; Clark Knox, Estate Store Co.; Harry W. Neely, Pittsburgh Dry Goods Co.; chairman, Commercial Council.

CLIPPER SHIPS IN LONG RACE

Contact Between Vessels Carrying Tea From China to England One of the Best on Record

The Chinese clipper races contested by vessels carrying tea to England entered the longest course of any race in history. One of the most famous was that of 1866. It was a "hugged" but none of these ships should sail from Hongkong with the new season's tea as nearly as possible on the same day, but it is five finished loadings in three.

The Fleet Cross was the first to start being towed out to sea early on Mar. 20. The Ariel followed next morning at 10:20. The Serica and the Teaspring sailing 20 minutes later while the Teaspring did not get out until midnight on the 31st. There were, of course, all chosen ships with a reputation for speed.

The Fleet Cross was the first to round the Cape of Good Hope 46 days out with the Ariel on her heels while the Teaspring Serica and Teaspring were respectively one hour and eight days behind. The Ariel led from the shore to the entrance to the English Channel where the Serica and Teaspring pulled up ahead of the others and there followed a ding-dong race up the Channel with a fine spread of canvas and a strong northerly wind.

The Ariel and the Teaspring were the leaders first and then the other two came ahead the others were along not far behind. It was a

worthy finish for such crack ships. The Teaspring arrived in the London docks at 9:45 p. m. on September 6. The Ariel in East India docks at 10:15 p. m. and the Serica in the West India docks at 11:30 p. m.

RABBIT BY NO MEANS TIMID

Correspondent Writes of Happening Which Would Seem to Make Old Saying a Foolish Thing

A sort of the fearlessness of the rabbit when still a baby is sent by a correspondent. Remarkable on the subject of the popular saying "As timid as a rabbit" when Bunny was about a month old I was passing with a friend through a woodland glade, and suddenly there appeared on the path before us a wild rabbit. It was a young wild rabbit evidently just escaped from the nursery. It was almost too young to run, and it looked at us for all the world like a baby. It came slowly following loping toward us and we held our breath for fear of scaring it away for it was a most fascinating little creature. Just a bundle of fluff and comely. Then while we watched it sprang up full armed. A weasel moving swiftly through the trees made a sudden dart. In one second it would have been over with bunny but my companion clapped her hands and gave a wild cry of anger and delight about in wrath. The weasel stopped to laugh a moment and then came lopping a little faster toward us—right up to us in fact. We had actually driven the little creature back to where we guessed its home might be before we could get our way with quick minds. "Scared as a rabbit," indeed!

To Avoid and Relieve Influenza

BY DR. FRANKLIN DUANE

Many people have been frightened by what they have read or heard of influenza. The more you fear it, the more sure you are to get it. It is right about your business and to let it be the disease spread principally by contact through coughing or sneezing or spit many health authorities have advised that everyone who has a cold or a fever should be isolated from the rest of the family.

SHOWING HOW SCOTS FEEL ON ATHLETICS

Sixty Thousand of Them Turn Out to See Soccer Game.

Public Needs Recreation and Lots of It in These Trying Times—Any Form of Amusement Helps—Same in Canada.

It has been claimed that sports in the United States should be abandoned for the duration of the war because the public is too much interested in the developments on the battlefields in France. For that reason the baseball season was cut short, football hung on the ropes and other athletic events are barely able to stagger along. Perhaps this is a good thing for the country, but few can see it, writes a correspondent.

The public needs recreation, and lots of it, in these trying times. Any form of amusement will help and to prove it look over the following cablegram from London.

"All soccer games in Britain were dwarfed recently by the big cup tie in Glasgow in which the Rangers and Celtic met in the final tie for the Glasgow cup before the crowd of 60,000 people. The Rangers won by the score of 2 to 0."

This is the fifth year of the war in England and the suffering there has been greater than it ever will be here. Hence that 60,000 crowd is a magnificent and shows the popularity of sports. The same is true in Canada where last summer baseball flourished and horse racing drew big crowds.

During the first year of the war sports of all sorts languished in England and Canada, but improved in the second year and for the past two years interest in all sorts of sports has grown to proportions fully equaling the period before the war and even surpassing it in some lines. Perhaps it is on this fact that some of the baseball managers base their faith that the game will flourish next year.

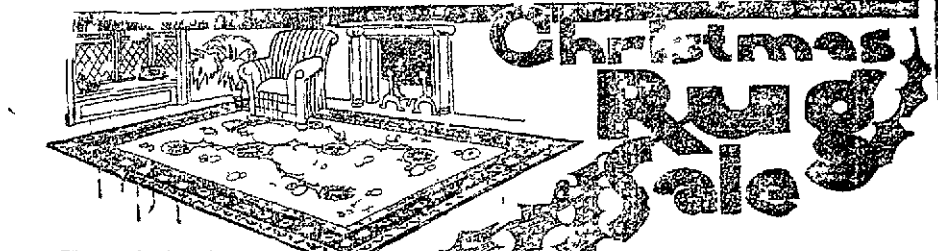

Conditions cannot be much different here than in England or Canada. Americans more than any other people demand recreation and there appears no reason why sport should not awaken here as it has across the water.

THE RED CROSS COMES

By JEANNE JUDSON.

Lest we forget the simple joys,
The kindly thoughts, the human tears,
The harmless laughter and the song
We know in other happier years,
Lest we grow hard, and cruel and cold,
And being young, our hearts are old,
Held in the grasp of death undied,
The Red Cross comes to fill again,
The cup of mercy long since spilled;
Bid in our hearts the birds to sing,
Reviving joy that anger killed.

Strength by Tilling the Soil
in Hospital Grounds.

The Base Hospitals of Europe, where American boys as well as the boys of our allies are recuperating, have decided that the men who are yet unable to fight, or to go back to their places in the ranks, may gain health and strength while tilling the soil, and incidentally may add many tons of vegetables to the necessary food supplies.

Ten expert market gardeners from this country have been sent to France to direct the work, as it has been found that this farm labor is one of the best restoratives of health, and also that there is no better work for those suffering from shell shock than this outdoor activity. Many soldiers who have worked at the farms, announce that they intend to buy farms and continue on their return to France.

In addition to the helpful exercise the tables are helped, and in one hospital there has been green corn on the cob served as a result of the soldier farming. Green corn is not common in France, but it certainly pleased the men who were fortunate enough to get some of it. And the American boys—well, just imagine an American seeing green corn on the cob when he didn't expect there was such a delicacy nearer than the old U. S. A.

More than two tons of vegetables were grown at Base Hospital No. 6 in less than three months. Peas, potatoes, beans, radishes, lettuce and corn, and the soldiers declare that there is nothing like the tasteful soldiers who can vegetables grown in the gardens of the hospitals.

CHINA AND JAPAN AID
CAUSE OF HUMANITY

The activities of the American Red Cross are almost boundless in scope, both geographically and financially. China and Japan have added considerable members and liberal contributions during the past year. In addition to these, the following countries are actively engaged in promoting the cause: The Hawaiian Islands, Cuba, Porto Rico, the Dominican Republic, the United States of America, Brazil, the Canal Zone, Chile, Guano, Haiti, Honduras, Mexico, Peru, Nicaragua, and Spain. The regular and foreign chapters have reported contributions of more than \$1,000,000 with numerous still incomplete. From China came more than \$100,000, and in addition 50,000 Chinese became associate members of the American Red Cross. From Japan more than \$50,000 have been contributed.

Everyone Should
Drink Hot Water
in the MorningWash away all the stomach, liver,
and bowel poisons before
breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headaches, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.—Adv.

CONDENSED MILK FOR
LITTLE SICILIANS

The problem of caring for the babies of Sicily was one which the Red Cross workers were almost at a loss to solve until the shipment of sweetened condensed milk came to their rescue. A can of condensed milk would last a baby a week, for one spoonful, put in a cup of boiling water, was sufficient for a feeding, and so, to many a Sicilian family the terms "American" and "condensed milk" will always be synonymous.

Last February a list of fifty families of Italian soldiers was given to the Red Cross workers in Italy. The families were carefully investigated and registered and the milk was given to them for the little children, especially the babies. Mothers came for the cans and were grateful beyond expression.

But with the coming of warm weather it was necessary to give out the milk daily, as it would not keep sweet. The mothers brought their own containers, and the milk was prepared, sugar added, and they were instructed carefully as to its use. Absolute cleanliness of receptacles was insisted upon, and the boxes were visited in order to make sure that the milk rations were being backed by healthful conditions.

Aside from the saving of the lives of the children, the soldiers are happier and they are better soldiers now that they know that their loved ones are being cared for by the Cross Bess.

OPEN NOSTRILS! END
A COLD OR CATARRHHow To Get Relief When Head
and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Fly's Cream Balm from your druggist and apply a little of this fragrant anesthetic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed up and miserable. Relief is sure.—Adv.

FOOD AT LOW COST
FOR BELGIAN FAMILIES

Through the combined efforts of the American Red Cross and the Belgian Government, food is now supplied at low cost to the families of those Belgian soldiers who are at the front or have been killed or taken prisoner. The Commissioner for Belgium of the Red Cross recently advised the Belgian Government that the American people were ready to undertake this work and that the Red Cross would provide 20,000 francs a month for it.

The Belgian Minister of Supplies has a chain of sixty-five stores in France and at the front, which sell goods to the families of Belgian soldiers working in munition plants or other places in the rear.

FAITH IN THE RED CROSS.

A young American soldier recently arrived in France tried to locate his brother, who was also in the army and who had preceded him "over there." It was like hunting for a needle in a haystack. After many difficulties and long waiting, however, he at last located the company to which his brother belonged.

Then he learned that his brother had been wounded and was in some hospital. That was all he could find out. With the faith of a little child in his eyes he told this to a hospital searcher belonging to the American Red Cross and then with the faith of a little child he added: "But the Red Cross will find him." And the Red Cross did.

WEAKNESS REMAINS
LONG AFTER
InfluenzaReports Show That Strength,
Energy and Ambition Re-
turn Very Slowly to Crippled
Patients.

After an attack of influenza, doctors advise that nature's process in its building-up process be the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-ferrin—your physician knows the formula—it is printed below.

There's iron in Bio-ferrin—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gelatin, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kola, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-ferrin is a splendid active tonic that will really help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-ferrin is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-ferrin. It is printed on every package. Here it is: Lecithin, Calcium Gluconate-phosphate, Iron Peptonate, Manganese Peptonate, Ext. Nuc. Ventral, Powdered Gelatin, Phosphobalium, Glucaria, Cupuleum, Kola.

YOU CAN'T SAY "NO!"

REMEMBER that last letter from your boy in France? Remember the stationery, the little Red Triangle in the upper corner that means so much to the boys in the expeditionary forces? or the "K of C." that stands for what your boy knows of comfort and sane, sensible, homelike surroundings amid the turmoil of war devastated fields.

Your boy knows the real joy that a Salvation Army lassie brings with her pot of steaming coffee and crisp brown Yankee doughnuts.

Your boy knows what comforts, what service, what recreation is supplied by the eight organizations included in The Fayette County War Chest. And they mean more than ever today.

The fighting over, there is the eager anticipation of the home-coming, and the heartaches and lonesomeness against which YOU must guard by supporting the organizations included in the Fayette County War Chest.

AMERICAN WOMEN OWN RICHEST GARNET MINE

The war has established the where the Spane river empties into the sea. The output of the mine was of American metal and American design. One of the most popular of the new jewelry is the garnet and a group of American women are the owners of the most valuable mine in the world. Miss Anna Durkee discovered veins of garnet running through the mountain in every direction from sea level to a height of 2,500 feet. The mountain was one gigantic garnet mine. Miss Durkee's mine produces garnets that bring the highest market price. They are the best quality of stones, known as almandines which collectors distinguish as "precious garnets." They are a go to prospect for copper. She was shown a garnet mine and bought it for her syndicate of women. It was located on Wyanoff peak near picked out with the fingers.

Australian Spotted Gum.
Spotted gum is one of the best known and most used of the group of trees known as Australian hardwoods. It is of a grayish-yellow timber, with a close grain, which is sometimes straight but occasionally interlocked, hard, tough and elastic. It is extensively used where resilience and lightness combined with strength are the desiderata, as in coach building and similar industries. Recently it has been much used for cabinet making purposes, as the color somewhat resembles that of oak. Considerable use is also made of the timber for street paving. On account of its strength it is much used in the building trade. Spotted gum is now generally employed by boat builders for timbers or ribs of vessels, formerly of ash or elm. When steamed or boiled it readily bends to conform to the shape of the vessel and has very little tendency to split or crack.

Men of the Taylor family. All are members of the American Red Cross. Top row, left to right: Frank, Bennie (for whom a gold star has been placed in the Taylor service flag), Vernon, Joseph and Monroe. Bottom row, left to right: Richard, Harvey, John Taylor (the father), Riley, Milton and Clinton.

"Well, I guess we'll have another recruit for the American Red Cross. I don't care whether it is a girl or a boy—we'll apply for membership in the Junior branch," said John Taylor to a Red Cross representative the other day as he was on his way with a physician to attend the birth of his twenty-second child.

John Taylor is a farmer living near Crystal Springs, Miss., and every member of his family has an enviable military record. There are four sons in the service, a gold star in the service flag and five more sons subject to draft. The gold star is for Bennie, who enlisted and passed away at Camp Bear regard in February, 1918.

Frank, Joseph and Monroe are all in Battery E of the old 14th Mississippi Field Artillery, somewhere in France. Vernon is serving in the Medical department of the 88th Aero Squadron in England. All are privates. Richard and Clinton registered in 1917, while Harvey, Milton and Riley were given cards recently in the new man-power draft. All are married and have children, and, with the exception of Riley, who operates a restaurant in Crystal Springs, all are farmers.

John Taylor has been married twice. Once, following an account of his large family, published in the papers throughout the United States, he received a barrel of flour from an Eastern mill. He did not know the story had been written until he received the flour. He has never made any boast of his record.

Back in the pine forests of Mississippi John Taylor goes about his work-day duties with a clear eye and a firm step. To his neighbors he is merely a rugged farmer, who plows his cotton and corn to raise food for his family. But to those who glance at the records of the nation Taylor appears as a super-patriot. Men of his caliber will win the war at home. His record measures up to the standard of his country. His sons are bearing the burden of war, while his entire family supports the right arm of the government—the American Red Cross—surely a record to be proud of.

Number of Meyersdale Boys Pay Visits to Relatives.

MEYERSDALE, Dec. 3.—Among the soldiers and sailor boys who have been enjoying vacations here with relatives, two note Captain Clarence Stahl of Camp Grant, Illinois. Sergeant George Fox of Camp Meade, Md.; Clarence J. Dahl of the U. S. S. New Mexico, and George Griffith, who is in training at State College, Pa.

Last Thursday evening the members of the Main Street Brethren church choir enjoyed a sumptuous turkey supper which was served at the home of Mr. and Mrs. Harry Cook.

Miss Mae Diehl very delightfully entertained a few of her friends at a 12 o'clock dinner on Saturday at her rooms on Center street.

Miss Harriet Staub was hostess on last Friday evening to ten lady friends at her home on Main street. The evening was spent at needle work, after which lunch was served.

George H. Hocking and daughter, Miss Lulu, have gone to Oakland, Md., to visit their daughter and sister, Mrs. William Sturges. Mrs. Hocking has been visiting there for several weeks.

Mrs. Elizabeth Younkin, who spent the past two months with relatives at Mount Braddock, returned home Saturday.

Misses Kathryn McKenzie and Sada Hartzel are spending a week in New York City, visiting the former's brother, Thomas A. McKenzie.

Mr. and Mrs. Robert Critchfield and two children of Rockwood spent a few days here at the home of Mrs. Critchfield's parents, Mr. and Mrs. John Stardi.

Miss Lulu Lee of Pittsburg is visiting relatives and friends here for a week.

Mrs. Richard Breig and two children have returned from a week's visit with relatives in Confluence.

Miss Edna Smith of West Salisbury has returned home after a few days' visit with relatives and friends.

Mrs. Wilhelmina Willard visited friends in Cumberland recently.

Miss Bernadette Crowe, who is employed at Somerset, spent Sunday here with her parents, Mr. and Mrs. C. E. Crowe.

Pick-pocket Fined.
Charged with picking pockets, Edward Hightown was arrested last night by Patrolman Henry Hetzel.

He was fined \$10 or 10 days in a cell by Mayor John Duggan this morning. Five other prisoners were sentenced this morning, and will be worked two days on the streets.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—tick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 15c and 25c per box. All druggists.

"FLU" VICTIM SUICIDES

Efforts of Mother to Save Rockwood Railroad Man Prove Futile.

Temporarily deranged during a severe attack of influenza, Charles Kuhns of Rockwood, about 36 years old, committed suicide on Sunday. While his mother-in-law, Mrs. C. A. Sterner, who was helping to nurse him, was absent from the room, Kuhns left the bed and secured a revolver. He attempted to shoot himself in the temple but the shot glanced. Mrs. Sterner, hearing the report, rushed into the room and attempted to disarm him, but he knocked her down and shot himself through the forehead.

Kuhns was a well-known Baltimore and Ohio railroad fireman.

CORP. LANCASTER WRITES CHATTY LETTER OF HIS EXPERIENCES OVER THERE

Mrs. O. F. Thomas of South Connelville has received six letters from her brother, Corporal L. L. Lancaster of Headquarters Company, 315th Field Artillery, written from a base hospital in France, where he was removed for treatment of pneumonia. The following is a part of a letter written on October 16:

"I developed pneumonia a week or so ago and for a few days was pretty sick. I am feeling much better now and hope to get back with the trench soon. Hospitals are the same the world over. We have American nurses. There is no sewerage, which is a disadvantage.

"How about my trip? I got into a truck and rode for about an hour. Then we came to a hospital. They gave us something to eat and allowed us to lie down until the next truck arrived. When it came it took us four hours we piled in and went for about 25 or 30 kilometers. We then came to another medical organization where they fed us coffee, took all of our good warm clothes and gave us pyjamas and a bed. This was at midnight.

"The next day, about 2 P. M., we were loaded on a French Red Cross train and arrived here the next morning at 6 o'clock. I don't know how

PECHIN EVENTS TOLD BY COURIER CORRESPONDENT

Many Things Have Happened. He Says, Since War News Crowded the Locality Off Map.

PECHIN, Dec. 3.—There have been some "doings" in Pechin since Uncle Sammie put her foot on the map in the Courier columns. The first noticeable thing was a visitor arriving in the town in the absence of the United Fire Brick company's stable which obstructed the view from the West Penn station. This stable was burned some time ago. As for the "doings" and its stored hay, "the noblest thing that perished there" was a faithful horse, "Old Tom," one of the most trusted servants the company had. His driver, Herbert Baker, was almost prostrated over the loss.

The next change a visitor will notice is that the store formerly owned by Baker brothers has changed hands. "Abe" Cohen of Conneltsville having bought out the Bakers.

Next in order came the "flu" which the community had evaded for a good while. But a family moved into the town from an infected district and had only been in for a few days when they all were taken sick. Neighbors went in to help the sick and contracted the malady. Relatives came to care for the stricken in the second family and they went home to find they were also among the flu victims. Others in turn visited these sick and they too shared in the plague, until at present there are many cases. Fortunately there have been no deaths so far except that of Veteran W. D. Black of Ferguson road. On the hill above Keffer's station it is epidemic in four families—E. E. Miller's, E. G. Lehman's, Elias Lehman's and J. A. Lehman's. Those first getting the disease are now improving but three new cases developed yesterday. J. A. Lehman is the good Samaritan who is giving all his time to the care of the more than a dozen cases in the four families, and is yet free from the plague, which good fortune he attributes to his liberal use of tobacco.

Orville Thorpe of Beeson mill, son of Mr. and Mrs. John Thorpe of that place, last week led to the altar Miss Faith Lowry of Pevee. After a wedding trip the young couple will reside at Beeson mill. The groom is a popular young man of this section, quite an athlete and with an enviable reputation as a boxer. His father is superintendent and manager of "Oakmont" farm, for the United Fire Brick Co., and the son will help care for the farm for a while at least. The bride was a very popular Pevee girl, the daughter of Mr. and Mrs. James Lowry of that place.

James Jeffries of Keffer's station, an employee of the West Penn, is at home suffering with the "flu."

Mrs. Sarah R. Herrington of Keffer's station is visiting her brother, David A. Keffer of Clairton.

James W. Wingrove has moved his family from Morgantown, W. Va., to Palmerton, the new town near the mines of the United Fire Brick Co. "Oakmont" farm at Pevee.

The remains of the late Edward Twigg, a victim of influenza, were brought here from Allison, Pa., Saturday and interred in Mount Auburn cemetery by Undertaker J. R. Feltz. Mr. Twigg's widow is the daughter of Mr. and Mrs. E. G. Lehman of Keffer's and she with her five children are staying with her parents until such time as some provision can be made to care for these and other "flu" orphans. Mrs. Twigg is in delicate health and a subject of care herself. It would be well if the community bearing the matter of looking after flu orphans in charge would give attention to these and other flu orphans in this section and about the furnace for there are a number of such.

Woman's Devotion to Home.

Home duties to many women appear more important than health. No matter how ill they feel, they drag themselves through their daily tasks, overdo and pay the penalty in headaches, backache, dragging-down pains and nervousness; they become irritable, and finally discover that some form of female complaint has fastened itself upon them. When a woman goes into this condition there is one tried and true remedy made from the roots and herbs of the field, Lydia's Pinkettes Vegetable Compound, which for more than forty years has continued its great work among women in restoring health after many other remedies have failed. —L.A.C.

ANOTHER CITIZEN OF PITTSBURGH PRAISES REMEDY

C. Jackson, 108 Burnette Street, Now Relates Experience With Ten-Herbs.

One of the most interesting statements recently made regarding Ten-Herbs in Pittsburgh is that of Mr. C. Jackson, of No. 108 Burnette Street, a well-known business man, who has been a resident of that city for many years. He stated:

"I have been troubled with my stomach for the past few years; was bloated with gas, and had indigestion. I had tried to keep to the lightest kind of food in my stomach. I was very nervous and could not sleep at night; my liver was sluggish and my kidneys were also affected. I had taken many different medicines without any benefit whatever and it was only when I started to take your Ten-Herbs that I got relief. I can now honestly say that I have no more trouble with indigestion, sleep well at night, and have no trouble with my liver or kidneys. I feel better in every way."

Ten-Herbs is a scientific blending of the essence of certain roots, herbs, berries and ores which have been known to medical science from time immemorial for their curative and healing properties in cases of stomach, liver and kidney diseases. Only the proportions of each and the modern method of blending are secret.

Ten-Herbs is sold in Conneltsville at the Conneltsville Drug Co. Store.

Class of 100 Children Trained by Father Gallagher, Annapolis.

MEYERSDALE, Dec. 3.—Rev. Father Gallagher, Annapolis, Md., who spent a week here giving a mission in St. Philip and James Catholic church, left Monday for Cincinnati, O., where he will give a two weeks' mission.

Father Gallagher had large congregations at every service held during the week. The closing exercises on Sunday evening were solemn and impressive and the procession of about 100 children, who were trained by Father Gallagher, was one of the grandest ever seen in the Catholic church here.

Rev. W. H. Beecher, former pastor of the Main Street Brethren church of this place, but now of Waterloo, Iowa, spent several days here visiting former parishioners and friends.

J. J. Dougherty of Conneltsville spent Sunday here, the guest of Rev. Father Brady.

Thomas A. Courtney of Acosta was calling on friends here Sunday.

Mr. and Mrs. Eugene Naugle have returned from a week's visit with the latter's parents, Mr. and Mrs. W. W. Saver at Somerfield.

Miss Kathryn Kaitan returned to her home in Latrobe on Monday, after spending several days here with friends.

Miss Jean Holmes, who was head milliner at Miller & Collins store the past season, returned to her home in Lonsdale, Md. Sunday.

Mrs. George Miller and three children have returned from Johnstown, where they had been visiting relatives for several days.

Miss Marie Forquer, one of our public school teachers spent Saturday and Sunday at her home in Confluence.
